

BEEF SOLUTIONS
BULL SALE

Fall Round Up

IONE, CA
B R O

Bruin Ranch September 27, 2018 • 1 p.m. Circle Ranch

September 27, 2018 • 1 p.m.

BID IN CONFIDENCE

All sight unseen purchases guaranteed.

Hotel Accommodations:

Comfort Inn, Galt, CA (209) 744-7800
Holiday Inn Express, Jackson, CA (209) 257-1500

Sale Site: The sale will be held at Circle Ranch in Ione, CA. See map on back cover.

Herd Health: All bulls in the sale have been Anaplas vaccinated and have been tested free of BVD persistent infection. Health protocols available from either producer detailing the timing and brand names of vaccinations and worming upon request.

Semen Testing: All bulls selling have passed a rigid semen test and fertility evaluation by an accredited technician.

Retained Semen Interest: The Beef Solutions breeders are retaining one-third semen interest on all bulls selling in the sale, unless stated otherwise. Buyer receives possession and full salvage value on the bulls.

Supplemental Information: A supplemental sheet, with complete up-to-date performance information on all bulls, is immediately available from either producer. All performance information is available sale day in hard-copy form, this sheet and any announcements from the block will take precedence over the printed material in the sale book.

Angus Genetic Information: All potential carriers for known genetic conditions: AM, NH, CA, M1 and DD have either tested free or are excluded as possible carriers by pedigree.

Live Auctions TV Real-time bidding via the Internet and live video will allow buyers to bid on animals just as if they were present at the sale. Buyers must create an account and request a buyer number. Instructions are available to walk you through the account setup process. Web address: www.liveauctions.tv. Email address: brad@liveauctions.tv. Contact@ Brad Fahrmeier (816) 392-9241.

Sale Day Phones

Jake Parnell, *Cattlemen's Livestock Market* (916) 662-1298
Matt Macfarlane, *California Cattleman Magazine* (916) 803-3113

Livestock Insurance: An agent is available sale day to facilitate any insurance needs you may have. Please inquire at settlement time.

Bull Delivery: Free delivery in California and adjoining states up to 300 miles. All deliveries are made at the buyer's risk. Take \$100 off the purchase price for every bull hauled home sale day.

Hospitality: Refreshments will be available throughout the day, and a complimentary Prime Rib lunch will be served at noon.

Bull Guarantee: All bulls selling have passed a Breeding Soundness Exam prior to sale. To insure your investment, the Beef Solutions Team will guarantee all bulls against breeding injury, and to be sound breeders for the first breeding season. Breeding Season is defined as the 90-day period following the first turnout of bulls. If a problem arises, contact us immediately and we will provide a replacement bull if available, or if the buyer prefers, credit toward a bull will be given for the upcoming sale, less salvage value of the injured bull. Notification of an injury or problem PRIOR to bull being sold for salvage is required for the actions of the guarantee.

Terms & Conditions: All purchases are to be settled for SALE DAY unless prior arrangements have been made. Cattle will all sell under the suggested Terms and Conditions of the American Angus Association (http://www.angus.org/Pub/suggested_sale_terms.pdf).

Disclaimer: The Beef Solutions Breeders and Circle Ranch assume no liability for accidents or injury that may occur. Attend the sale at your own risk.

Photo Credit: Special thanks to Logan Ipsen and Debbie Bell for bull photos; Rick Raef at Working Ranch Photography and Alanna and Savannah Molina for landscape photos.

Fellow Cattlemen and Valued Customers,

Thank you for considering us as a source of your genetics for your 2019 calf crop. We are excited to welcome you to our 12th Annual Fall Beef Solutions Bull Sale. Much of California and the West has been blessed with a feed-year second to none and many will be coming home to more fall feed than ever seen before. We are optimistic that southern California and the coast will receive some early rains and will continue to rebuild their cowherds to pre-drought numbers.

The Fall seems to open a new chapter of our businesses, there is optimism and a renewal of excitement for the new calf crop, the new bull purchase, hauling cattle home from summer grass or gathering in the mountains. While the primary concern always seems to be feed resources and rain, ranching in the West – particularly in California – is not getting easier. Between wolves, wildfire, a constantly decreasing land base, and overreaching regulations, it seems that we, as ranchers, spend so much time battling the peripheral issues affecting our operations that little time remains to enjoy the things loved growing up in this business.

We don't mention the challenges in the West to bring all the bad to the front of our minds, but rather to underscore the importance of relationships in this business. Sometimes our greatest resources are the relationships we have built. The Beef Solutions team is literally ranching right alongside of you. By running cows as your neighbors, we know the issues you face because we are dealing with them as well. Most importantly, we know the kind of cow you need to remain profitable and nimble in the marketplace. Despite a turbulent spring run, Beef Solutions-sired calves topped the market at nearly every venue they were offered.

Market preferences, costs and other outside issues will always affect cattle producers, but we choose to control the things we can control: **The Mother Cow**. Our goal has always been to worry about the cow side of the equation so that your cowherd thrives within your environment. Our cowherds are built on generations of proven predictability and more than a "paper promise." This year we had the privilege of helping customers ship more calves than ever before and evaluated first hand many of our customer's cows and replacement heifers. **We are excited to state that the future is bright.** Combining phenotypic excellence and environmental adaptability with modern technology is the proven formula for financial success.

It's an over played cliché of the bull sale season to say, "This is the best set of bulls we have produced to date." While the bull offering is as stout as you've come to expect, we are most excited to announce that the cowherd behind these bulls is better than it has ever been. For us, genetic improvement is measured by the overall consistency of our cowherds. Today, the cows are more consistent throughout and deeper in their quality and productivity. **We are beyond proud of the cows behind these bulls and hope to earn your business.**

Please join us for a prime rib lunch on Thursday, September 27 at noon in Ione, California.

Feel free to contact either producer to set up a time to preview any of the bulls or for any questions you may have.

**Win a
FREE
Bull!**
See page 56 for details!

Beef Solutions TOOLBOX

SELECTION MADE EASY

The Beef Solutions Team will once again offer the user-friendly toolbox in this year's sale book to help you in your buying decisions. Below the pedigree and genetic information, we've listed percentile rankings within breed and labels for individual outliers for particular traits.

Additionally, we're providing a toolbox that identifies different solutions (for Angus and SimAngus™). This reference is helpful to quickly find sires that can provide a specific service – like breeding heifers or improving carcass and performance – in your calf crop.

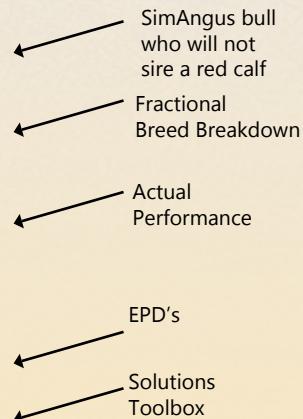

ANGUS BEEF SOLUTIONS

- CALVING EASE SOLUTION** - A tool to consider when selecting heifer bull candidates. Bull has a 1.4 Birth Wt. EPD or less and a Calving Ease Direct (CED) EPD in the top 40% of the breed.
- QUALITY GRADE SOLUTION** - Bull ranks in the top 50% of the entire breed for Marbling EPD.
- PERFORMANCE SOLUTION** - Bull ranks in the top 50% of the breed for his Weaning Weight and Yearling Weight EPDs.
- \$EN SOLUTION** - Bull ranks in the top 50% of the entire breed for \$Energy.
- \$W SOLUTION** - Bull ranks in the top 50% of the entire breed for \$Wean.
- GROW SAFE** - Complete Growsafe Feed Efficiency data available on all Angus bulls upon request.

SIMANGUS™ BEEF SOLUTIONS

- CE SOLUTION** - Bull Ranks in the top 50% of the entire breed for Calving Ease.
- PERFORMANCE SOLUTION** - Bull ranks in the top 50% of the breed for his Yearling Weight EPDs.
- ALL PURPOSE SOLUTION** - Bull ranks in the top 50% of the breed for his All Purpose Index.
- STAYABILITY SOLUTION** - Bull ranks in the top 50% of the entire breed for Stayability EPD.
- MATERNAL CALVING EASE SOLUTION** - Bull ranks in the top 50% of the entire breed for Maternal Calving Ease EPD.

Thank you!

COMMERCIAL CATTLEMEN
are the backbone of our operation and the
foundation for everything we do.

We are proud to count our loyal customers as
partners and friends and we are humbled to
welcome new customers.

We will work to earn your repeat business,
your trust and your friendship for years to come.

Photos by Rick Raef, Working Ranch Photography

Environmental adaptability is one of the most important breeding goals at Circle Ranch. Cows should work for their owners, not the other way around. We run our cows in a similar fashion to the majority of our customers to help ensure they will work in a variety of environments and promote profitability. That, too, is part of the reason we harness the power of heterosis to create a more durable genetic product capable of breeding and lasting longer regardless of the environmental challenges posed. We absolutely have a herd target for mature size that we think best fits the majority of our customers and the larger beef industry. The lions share of our bulls hit that target dead center and many of our customers prefer them. On the edges however you will find genetics here that can produce power house performance for higher resource situations as well as some lines created to minimize maintenance requirements for low-input regions.

BEEF KING SimAngus Yearlings

Circle Beef King C100

Circle Beef King

C100: C100 was selected by John Christenson of South Dakota in our 2016 bull sale and was quickly given the name "King Wally." King Wally is the high-octane performance sire we were hoping for when we mated our Wally daughters to Beef King. He was a performance standout among his contemporaries and was admired for his outstanding structure and foot quality. King Wally's dam came to us when we were given the opportunity to select cows from over 500 mother cows at Wang Ranch in Baker, MT. For us, the SimAngus cows that were a combination of Wally and EXT rose to the top and over time, King Wally's Dam has proven to be best suited for our program. This is the first set of King Wally's offered and we are excited to breed his first daughters.

MAKING A LOGICAL CASE FOR SIMGENETICS

by Marty Ropp,
Allied Genetic Resources

Before I go any further there are a few important facts about breeds and the beef business that need to be cleared up.

1. Maximum commercial profitability requires heterosis, which results in 25% more lifetime production and 1.5 years greater longevity per commercial female than their purebred counterparts. (Confirmed by almost every crossbreeding research trial reported for the past 40 years)
2. Continental x British crossbred cattle make more money year in and year out for cow/calf operations, cattle feeders and packers than any other breed combinations. (US Meat Animal Research Center Report 1, 2, 3,...22)
3. Angus, Red Angus and Hereford, in that order, are the British breeds of choice in the US and are an important and necessary part of the American beef business. (Based on annual breed association registration information)
4. Simmental is the highest ranking Continental beef breed in the US for direct calving ease, maternal calving ease, puberty, weaning weight, post weaning gain, % Choice, tenderness, and most measures of feed efficiency. (US MARC Research Center Report #22)

If you consider these facts, there are several logical conclusions that become evident. First, regardless of some marketing propaganda to the contrary, progressive, profit-driven commercial cattlemen use crossbreeding to enhance their success.

The second conclusion is that the most successful crossbreeding systems utilize the complimentary traits of British and Continental breeds in combination. Data from the ASA Carcass Merit Program suggest these Simmental-British cross cattle will finish at around 1300 pounds, grade Choice or better at a rate of 74% and with an average fat depth of .4 inches of fat, while placing nearly 60% of the carcasses in Yield Grades 1 and 2. This is not to guarantee that a 50/50 combination is right for every situation. For most, somewhere between 25%/75% and 75%/25% will be optimal with an American breed component often being advantageous in heat-challenged climates. These producers count on British breeds to contribute maternal efficiency, marbling and convenience while the Continental component offers accelerated performance, carcass cutability and growth efficiency to their programs.

Conclusion number three: Angus is by far the most popular British breed in the US. This is not a slur toward other British breeds, nor does it mean it has always or will always be this way, but today it is a fact.

Actually, the Angus and Red Angus gene pools and breed strengths are so similar they could be considered one for the purpose of crossbreeding programs.

Finally, if you accept facts 1-4 above, one must choose a Continental component to complete the puzzle and Simmental is the logical choice.

After years of advanced genetic evaluation, a commitment to research and consistent breed improvement, Simmental and SimGenetics are poised to fill that position as the most logical and profitable choice for Continental genetics. No other Continental option offers the combination of growth, carcass value, calving ease, maternal and efficiency traits that Simmental does.

Some provide comparable terminal value, others bring some useful maternal traits to the table, but SimGenetics combine both. In fact, they rank first or second in almost every economically important trait category listed in the latest MARC data. This is no accident. The ASA's Carcass Merit Program, Calving Ease Project, Tenderness Testing and new Feed Efficiency research programs are all member-funded and provide significant opportunity to evaluate and prove the next generation of superior genetics.

When you combine this with the largest database among all Continental breeds and the most proven multi-breed genetic evaluation in the entire US beef industry, Simmental breeders have all the tools necessary to make positive, consistent change faster than our competitors.

So whether you choose Simmental to complement British breed commercial females or one of our popular SimGenetics options to preserve a balance of Continental and British genetics while retaining heterosis in your herd, you can be confident you are using all of the facts available to make the most logical choice possible.

Circle Old School B62 • Sire of Lots 6-7, 41-63

**Hook's Capitalist 37C
Maternal Brother to Circle Old School B62**

Circle Old School B62: In 2013, we made an agreement with Tom Hook of Hook's Farms in Tracy, Minn., to flush one of his high-valued Simm-Influenced females that fits our program to a tee: Hook's Extravaganza 7X, a moderate, deep-bodied GW Lucky Man daughter with excellent foot and udder quality. We mated her to the maternal great Leachman Right Time. The mating produced our 2015 high seller: Circle Old School B62 that went to our cooperators, Wang Ranch of Baker, Mont. Wangs have AI'd more than 500 cows to Old School, who has become a cornerstone of their program. Old School sires high-value females, as well as stout, heavily muscled bulls. This year, we are offering 24 sons of Old School, including Circle the Bases D384, an Old School son out of our donor Circle Olie W11, who has produced 42 bulls and is the dam of Lots 1-5, 7, 41-42 and 68-70. Circle the Bases, Lot 41, is the best one yet. He is in the top 1% in the breed for Stayability and Rib Eye.

BEEF SOLUTIONS TOOLBOX

Hook's Broadway 11B Sire of Lots 75-80

Hook's Broadway 11B: Easily the most talked about purebred Simmental in his contemporary group, Broadway was a must-use for progressive seedstock operations. Broadway is pure power with breed-leading indicators for performance and growth. As an added bonus, Broadway combines his performance with an outstanding phenotype. Early reports of Broadway daughters are positive with the broodiness and body depth that indicates long-term usefulness in a cowherd.

How do you see the FUTURE of BEEF PRODUCTION in the *West*?

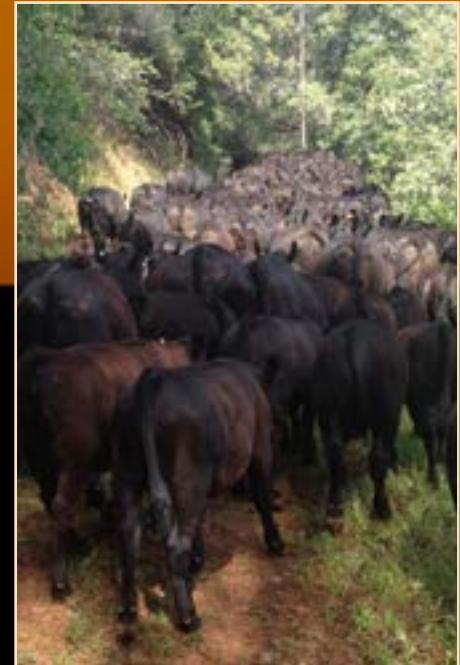

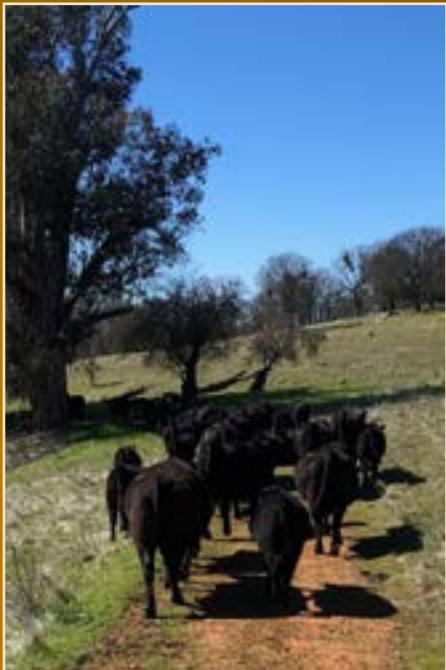

The industry seems abuzz about the direction of genetic improvement and if you ask a group of cattlemen to define beef cattle improvement, you'll likely get as many opinions as you will folks surveyed. For us, we see the future quite simple and the direction of our herd is clear.

- Produce the most pounds our environment will support.
- Optimize our total cowherd performance through consistency.
- Use sires of proven maternal lineages for predictable maternal performance and efficiency.
- Produce profitable, problem-free females that leave a lasting impact for generations.
- Use EPDs and Genomics as tools to complement, not replace, phenotype and actual production in our genetic selection.

These goals have been developed by raising livestock alongside our customers and listening to YOU. Every time we talk to commercial cattlemen we are listening and developing a plan of what our genetics will look like in the future. Interestingly enough, it's mostly just a sound board because most commercial cattlemen and women are saying the exact thing we have been observing in our own operations and we have already made the move.

ENTERPRISE Summer Yearlings

LT Enterprise 5213:
On a ranch tour of the Lindskov-Thiel Ranch, we found Enterprise about a month before his yearling birthdate. 5213 was at the top of his contemporary group and we were blown away by his quality in structure and design. The LT Ranch bred over 2,000 heifers to him and at our operation we have yet to use a bull more bullet proof for calving ease. Brent Theil described him as having "rock solid calving-ease and vigor at birth." 5213 is a maternal brother to several proven cow makers in the LT program and the bottom side of his pedigree is intensely bred for maternal quality. We are really excited about this set of calving ease bulls.

LT Enterprise 5213 • Sire of Lots 105-118.

RECHARGE Summer Yearlings

SAV Recharge 3436 • Sire of Lots 105-118.

SAV Recharge 3436: Recharge is a new sire for us but an older and time-tested mating. Recharge is the most phenotypically complete brother to Resource, but two years younger. Upon evaluation, we found Recharge to have a little more vertical growth and style than Resource with similar muscle shape and power. We think that Recharge will re-write the script for maternal excellence and range adaptability. We used Recharge on some of our very best and older cows to try and make outstanding daughters, unfortunately for that plan, we got a lot more bulls than heifers. These sons are as complete and outstanding as we have offered.

Flush Brothers: A highlight of the California bull sale season will be these 5 powerful flush brothers out of the most proven and influential daughter of Blackbird 6071. Their dam 8616 is a model beef cow, she is long fronted and feminine, but powerful and long much like her mother. At 10 years old she is still in production and stands on an excellent set of feet and legs. 8616 holds a flawless production record maintaining a Nursing Ratio of 107.

Bruin 1023 Blackbird 8616 • Dam of Lots 118-122, 163

RECHARGE Summer Yearlings

Blackbird 6071 Sons: Many producers have asked us when the daughters of Blackbird 6071 would start to surface. We are excited for their debut. Introducing Envy. He is a testament to our breeding program, combining a pedigree known for power and performance, with a dam with outstanding phenotype and production. Envy's dam (4264) is a rising star in the Bruin Ranch program going "two for two" with her first calf being one of the best replacement heifers and her second being Envy. Phenotypically, 4264 is ideal for our environment. She is long-fronted and elegant, but powerful when studied from behind. She maintains a near flawless udder with excellent teat placement and more than ample milk with a nursing ratio of 2@106. Envy has been the crowd favorite all spring at Bruin Ranch and will be used in our program.

Bruin Torque 5261: Torque has become a household name in the Angus business for breeders seeking foot quality, docility, muscle shape and maternal efficiency. His unique pedigree traces 3 times to Right Time and was a mating created to combine the maternal excellence of the pathfinder sire Density with one of the breed's great cows for transmitting foot quality, disposition and phenotype. The first set of Torque calves have been highlights of the calving season. They arrived with smaller than expected birth weight and hit the ground growing. The bulls are long-bodied and have the look to be performance type cattle in the right package. The females are the type and kind to build a robust maternal herd around. Torques flush sisters are visitor favorites with picture perfect udders and ideal teat size. We have 3 calf crops on the ground and continue to use him aggressively in our operation both AI and in the ET program. It is our goal to work Torque into the bottom side of as many pedigrees in our herd as possible.

Koupal Kozi 418: Kozi is a bull we are really excited about and have many more in the pipeline for next year's sale. Besides being outstanding to look at, Kozi sports an impressive EPD profile. At the time we used him he was one of the top \$WN bulls in the entire Angus population. These three Kozi sons are incredibly consistent being beefy, big middled bulls with natural width and herd bull presence. Kozi's dam (263) is one of the top producers in the Koupal Angus program with a phenomenal udder and is a maternal sister to the breed standard for quality and phenotype, Ebonette 734. The Koupal family has been incredible to work with and we are thankful for the opportunity to integrate some of their genetics into our program.

ANGUS Coming Twos

Koupals B&B Titan 3013.

The first time we were exposed to Titan was in 2016 in Dante, SD. We had made the trip for a herd bull from another sire group and were completely awestruck by the type and consistency of the Titan progeny. We found Titans mother (0068) to be one of our picks out of a herd where maternal perfection is the standard. 0068 is beautiful uddered, deep bodied, moderate, and one of the most productive cows in the entire Koupals B&B herd with BR 5@96 WR 5@102 and YR 4@104. We used Titan to add length of spine, growth and extension to some of our more moderate cows. We were so pleased that we used Titan for two additional calving seasons. Nearly every standout fall heifer is sired by Titan and while we are certain these bulls will be received with a warm welcome from the most discriminating cattlemen, his true legacy will be the daughters. The first reports are very exciting out of the Lindskov-Thiel and Koupal programs, they are model females with excellent udders and teat size.

Koupals B&B Titan 3013 • Sire of Lots 132, 133, 159-163.

ANGUS Coming Twos

SAV Resource 1441: SAV Resource 1441 is a true breed changer. In the first offering of progeny in the West, Resource dominated the fall bull sale circuit with his sire group receiving strong demand throughout our sale. We have never used a sire with more consistent phenotype and growth in the right package than Resource. These cattle are moderate in frame, the daughters are sensible in their mature weight and yet every time we weigh a Resource at weaning or yearling we are shocked, they weigh like lead. The bulls are extremely expressive in their muscle pattern and very docile. After calving the first daughters, we are pleased to report that these females are here to stay. The greatest compliment we can give is when we use a bull again and you can expect Resource sons and grandsons in our sale for the next several years.

SAV Resource 1441 • Sire of Lots 126, 164-166.

The only Aviator daughter offered and one of the gentlest heifers in the bunch. Her dam is one of the favorites of our kids and visitors. 5292 is a rising star in our program, she is perfect uddered and beautifully made. Three generations of Model Angus cows in her pedigree. Dam and Granddam still in production

Thank you
for your interest!

Win a FREE BULL!

Immediately following the conclusion of the sale, there will be a drawing for a **FREE BULL**. After the gavel drops on the final bull, we will draw a lot number from a pot and that bull will be given a credit towards the purchase price equal to the final sale average. If the bull selected is less than the average, then the bull is **FREE** with no cash compensation. The winner must be present to receive the award.

Previous FREE BULL winners:

2007	Gary Silva Sr., Herald, CA
2008	Lazy JT Cattle, Shandon, CA
2009	Andy Bonham, Paloma, CA
2010	Brennan Cattle, Oakdale, CA

BRUIN TORQUE 5261

"WE ARE VERY IMPRESSED by the Torque calves here at Upchurch Angus. They all came unassisted and are lighter than expected at birth. The calves have a lot of vigor at birth and explode with growth. He has mated well to our Resource daughters. The calves have nice shape and we feel the daughters will be exceptional replacements while the bulls will be stout, sound and fertile. We used Torque harder this breeding season as we are so pleased with his first progeny. Torque is very docile, good-footed and long spined. I feel he's the Density son that the Industry has been waiting on."

- Jason Upchurch, Upchurch Angus

"The first set of Torque calves have been the **HIGHLIGHTS OF THE CALVING SEASON**. They arrived with smaller than expected birth weight and hit the ground growing. The bulls are long-bodied and have the look to be performance type cattle in the right package. The females are the type and kind to build a robust maternal herd around. We continue to use him aggressively in our operation both AI and in the ET program."

- Joe Fischer, Bruin Ranch
