160 ANGUS & SIMANGUS BULLS

COMMERCIAL-FOCUSED

THEN, NOW *and* Tomorrow

Circle Ranch
SimAngus™ Seedstock

Bruin Ranch
Angus Seedstock

A lesson in history helps to understand where we have come from, but also gives us the opportunity to reflect on change. History provides context. **The Curran and Fischer families have been ranching in Amador and Calaveras Counties for over 150 years.** Our roots as commercial cattlemen keep us grounded in the type and kind of cattle we produce and operations we run. Taking care of our resources, working hard and harvesting as many pounds of high quality product have always been the core principles of success in Agriculture. Our strong connection to this region and our foothill communities have honed our focus on the type of cow required to excel at this task.

- Produce the most pounds our environment will support
- Optimize our total cowherd performance through consistency
- Produce profitable, problem-free females that leave a lasting impact for generations
- Use EPDs and Genomics as tools to compliment, not replace, actual production and type in our genetic selection

We have a generational commitment to this lifestyle and have built cowherds that combine these goals, setting the stage for a sustainable future in this business. There is no

greater testimony to longevity than the simple fact that we are still here ranching right alongside you and our children aim to continue.

While we cherish our heritage, we understand and fully accept the responsibility of producing the kind of cattle that position our customers for success in the future.

After all, our cowherd today is what yours will look like tomorrow. This offering is the culmination of many years of our breeding programs and an honest commitment to the ranching families that we are humbled to call our family and friends. We sincerely thank you for the opportunity to be your seedstock supplier.

DOING WHAT WE SAY WE WILL...

Welcome, friends and family!

Once again, we come to you blessed and thankful to live the rural American life. Raising livestock is an interesting vocation. It really doesn't matter where you are from, anywhere in the world, the pattern of husbandry practices, challenges and rewards are very similar to everyone else. This is something we think about often and while some of us may disagree on small things, we can agree that on the big issues, we have a common bond. It is with this premise in mind that we thought it would be interesting to share with you how this sale partnership remains such a positive relationship after 20 years.

Prior to 2007 and before hosting a production sale, the Circle and Bruin Ranches would approach each fall sale season the same. Part of each set of bulls would be on test at Cal Poly in San Luis Obispo, part on test at Snyders in Nevada and the balance were offered through consignment sales or by private treaty throughout the west. Each operation focused on quality over quantity in both customer relationships and numbers of bulls produced. The relationship between the Currans and Fischers grew to bull sale partners at Cal Poly, where Joe and Abbee were students among others sharing management responsibilities of the bulls on test. In 2007 the need for a production sale to handle the volume of bulls and timing of the two programs aligned.

While we prefer cattle that function the same and have almost mirror image breeding objectives, what brings us closer than anything are the values we share. The phrase, "do what you say you will," has been a guiding principle of this bull sale, this partnership and our friendship. Through a collection of discussions and scenarios we have gone through together, we have further solidified our commitment to the core values and principles we were raised with. Some people call these values "code of the west" or "a world view." Whatever phrase you use to describe these qualities, they are a bond that connects us all. Rest assured, you can be certain that when you do business with us, we will always "do what we say we will."

We thank you for the commitment to our program, we thank you for the friendship and most of all, we thank you for staying committed to this lifestyle and business. Please join us to celebrate our 18th production sale at the Circle Ranch headquarters on the fourth Thursday of September.

ALLIED
GENETIC RESOURCES

SEPTEMBER 26, 2024 • 1 P.M.

BID IN CONFIDENCE • ALL SIGHT UNSEEN PURCHASES GUARANTEED.

SIMANGUS™ BULLS: LOTS 1-85 • ANGUS BULLS: LOTS 101-163

Hotel Accommodations:

Comfort Inn, Galt, CA..... (209) 744-7800

Holiday Inn Express, Jackson, CA..... (209) 257-1500

Sale Site: The sale will be held at Circle Ranch in Ione, CA. See map on inside front cover.

Herd Health: All bulls in the sale have been Anaplas vaccinated. Health protocols available from either producer detailing the timing and brand names of vaccinations and worming upon request.

Semen Testing: All bulls selling have passed a rigid semen test and fertility evaluation by an accredited technician.

Retained Semen Interest: The Beef Solutions breeders are retaining one-third semen interest on all bulls selling in the sale, unless stated otherwise. Buyer receives possession and full salvage value on the bulls.

Supplemental Information: A supplemental sheet, with complete up-to-date performance information on all bulls, is immediately available from either producer. All performance information is available sale day in hard-copy form, this sheet and any announcements from the block will take precedence over the printed material in the sale book.

Angus Genetic Information: All potential carriers for known genetic conditions: AM, NH, CA, M1 and DD have either tested free or are excluded as possible carriers by pedigree.

Inspection: Cattle will be available for inspection beginning Tuesday, Sept. 26 through the conclusion of the sale.

Livestock Insurance: An agent is available sale day to facilitate any insurance needs you may have. Please see Joe for details.

Bid and Buy Online: This sale will be broadcast through Superior Production's Click-To-Bid Internet service. For details about how to participate, turn to page 8.

Bull Delivery: Free delivery in California and adjoining states up to 300 miles. All deliveries are made at the buyer's risk. Take \$100 off the purchase price for every bull hauled home sale day.

Hospitality: Refreshments and food are available on Wednesday afternoon and all day on sale day.

Bull Guarantee: All bulls selling have passed a Breeding Soundness Exam prior to sale. To insure your investment, the Beef Solutions Team will guarantee all bulls against breeding injury, and to be sound breeders for the first breeding season. Breeding Season is defined as the 90-day period following the first turnout of bulls. If a problem arises, contact us immediately and we will provide a replacement bull if available, or if the buyer prefers, credit toward a bull will be given for the upcoming sale, less salvage value of the injured bull. Notification of an injury or problem PRIOR to bull being sold for salvage is required for the actions of the guarantee.

Terms & Conditions: All purchases are to be settled for SALE DAY unless prior arrangements have been made. Cattle will all sell under the suggested Terms and Conditions of the American Angus Association (http://www.angus.org/Pub/suggested_sale_terms.pdf).

Disclaimer: The Beef Solutions, Bruin and Circle Ranch assume no liability for accidents, injury or Covid-19 exposure that may occur. Attend the sale at your own risk.

Photo Credits: Special thanks to Logan & Stevie Ipsen for bull photos; Savannah Molina for bull and landscape photos; Rick Raef at Working Ranch Photography, Patricia Fischer, Kati Roberti. Angus Media and Grant Company for landscape photos.

SCHEDULE OF EVENTS

WEDNESDAY SEPTEMBER 25TH:

3:00 PM: Bulls available for viewing

Evening: Pre-sale Steak Sandwich Social at the Ranch

THURSDAY SEPTEMBER 26TH:

10:00 AM: Bulls on display, refreshments and snacks hosted
Noon: Prime-Rib lunch (Hosted by Native Sons of the Golden West)

1:00 PM: 18th Annual Beef Solutions Bull Sale

WE'VE ALWAYS BEEN ABOUT *Solutions!*

We have learned that solutions and resources that aid you in making sound purchasing decisions have changed over time. On the SimAngus side, we have invested heavily in innovative genomic solutions and designations through RightMate. In the Angus Division, we invest in Genomically Enhanced EPDs and comprehensive footnotes. We encourage you to contact either producer for added insight into your purchases.

Beef Solutions Benefits

- First breeding season guarantee
- Large Sire Groups in Volume
- Free Delivery in California and adjoining states up to 300 miles
- Free Bull Drawing at the conclusion of the sale
- Year round customer service and marketing support
- Cowherd run like commercial cattle on range in the Foothills
- Family owned, Family managed
- Sight unseen satisfaction guaranteed
- Phone, Internet and In person purchasing options
- Exciting new genetic consultation. See page 35!

Win a **FREE BULL!**

Immediately following the conclusion of the sale, there will be a drawing for a FREE BULL. After the gavel drops on the final bull, we will draw a lot number from a pot and that bull will be given a credit towards the purchase price equal to the final sale average. If the bull selected is less than the average, then the bull is FREE with no cash compensation.

HOW TO PARTICIPATE AS AN ABSENTEE BUYER

Our absolute favorite part of sale day is visiting with you in person! However, we recognize that with this year's unique public health situation, some of you may feel more comfortable to purchase your next herdsire from the comforts of home. **This is why we have also made preparations for bidding by phone as well as bidding through Superior Productions' "Call or Click-To-Bid" service.** Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com.

HERE'S HOW IT WORKS

Turn in Bids Over the Phone. This is our traditional method of buying livestock. To get started simply go online to www.superiorlivestock.com and click on the tab titled "Register for a Buyer Number". Select the registration form for Superior Productions and print the registration form, fill it out and fax it in to Superior Productions at (817) 3783380 with a signature on it, or scan and email the form to info@superiorauction.com. You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

Click-To-Bid. This is Superior's online bidding platform for cattle buying. Please note that high speed internet is required – this is not for dial-up or satellite internet. Registration is free, but you must become a member of www.superiorclicktobid.com to sign-up.

Becoming a member is easy - just go to the homepage of www.superiorclicktobid.com and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved you will receive an e-mail confirming which sale you are now registered for.

Viewing the Auction. There are 2 places to view the sale broadcast live on the internet:

- www.superiorlivestock.com, or
- www.superiorclicktobid.com.

Just go to the home page of either website and select the auction. If you just want to watch the auction on your computer, smartphone or tablet go to www.superiorlivestock.com, but if you want to bid over the computer you must go to www.superiorclicktobid.com. Remember you can call in to bid on the internet, but you must be a member of www.superiorclicktobid.com.

com to "click-to-bid". Your computer must have Flash Media Player installed for this website to view the auction. If you have any questions, please call the Superior Productions office at 800-431-4452.

***If you plan to bid by phone through Superior Livestock or 'Click-to-Bid', you must register at www.superiorlivestock.com prior to bidding.**

Improved Buying Confidence with Greater Genomic **ASSURANCE**

Access to more and better information has always been key to making wise decisions. The evolution and improvement of genetic evaluation tools too has given us an ever-clearer picture of the true genetic makeup of cattle and thus a better view of the value proposition. RightMate, powered by Top Genomics LLC is taking the evaluation of genetics and genomics one giant step further. By combining specific genomic information with the long-proven value of EPDs, this new advancement in technology improves our depth and precision when evaluating the actual ability to transmit value and profit.

The 3 Accreditation Logos below are designed to simplify bull selection and improve buyer confidence by more accurately describing the genetics offered and by reducing risk. What this means to you as a customer is a much greater assurance that you are getting both what you want and need from the genetics you purchase. What it means to your seedstock provider is access to RightMate technology that simply sets them apart from the rest of the industry.

ACCREDITED GENOMIC PLUS – For the majority of producers who simply need consistent and balanced genetic improvement, without genomic setbacks, G+ Accredited bulls should be on your list for premium purchase. These sires will absolutely move you forward for both cost reduction and income producing traits and substantially reduce risk when compared to all other evaluation programs. It's simple, the right genes are in these bulls to help secure a profitable future and they have great EPDs to match!

ACCREDITED CALVING EASE – Simply find bulls with the ACE logo for third party Accredited, secure Calving Ease bulls. Though we have had tools in the past to assist in choosing heifer bulls, we've never had one nearly this effective. The reduced risk that comes with this genomic certification will simply make your decisions easier and your heifer calving season more successful. Purchase special purpose ACE bulls with confidence. They will deliver consistent and predictable calving ease.

ACCREDITED TERMINAL MATE – Just like an ATM machine makes it simpler to access your cash, the ATM Logo highlights bulls accredited to generate extra cash income as soon as your next calf crop! These bulls are meant specifically to use only on mature cows and for the purpose of adding performance, pay weight and end product value to market.

RANCHING *Sierra Valley* IN THE

This is our tenth-year summering cattle in Sierra Valley. Sierra County, with a population of 3000, is the summer home to over 10,000 mother cows. With an elevation of 5000 feet, it's the perfect climate for fall calving cows and we AI breed everything we send there including our replacement heifers.

Use your smart phone's camera app to scan this QR code for a message from Tim.

From left: Cameron, Austin, Jill, Jack, Tim, Taylor, Faye Rose and Savannah

For generations, environmental adaptability has been and continues to be one of the most important breeding goals at Circle Ranch. Cows should work for their owners, not the other way around. We run our cows in a similar fashion to the majority of our customers to help ensure they will work in a variety of environments and promote profitability. **That, too, is part of the reason we harness the power of heterosis to create a more durable genetic product capable of breeding and lasting longer regardless of the environmental challenges posed.** We absolutely have a herd target for mature size that we think best fits the majority of our customers and the larger beef industry. The lions share of our bulls hit that target dead center and many of our customers prefer them. On the edges, however, you will find genetics here that can **produce power house performance** for higher resource situations as well as some lines created **to minimize maintenance requirements for low-input regions.**

CIRCLE THE BASES *sons*

When we toured the Schlenkers farm in 2022, our cooperator, Sam Collier, Shasta View Genetics, told us Sweet Sixteen was a must see. She was in the same pen as her mother and both had brand new babies at their side and I'm still not sure which is the better cow physically, but the EPD profile of Sweet Sixteen is exactly where we want to be. Excellent calving ease direct, maternal calving ease, stayability, marbling and ribeye. Equally important to us is that her yearling weight EPD is breed average, and with our focus on keeping mature cow weight in check, that was the final piece that convinced us we needed those genetics. We flushed her to Circle The Bases D384, who is the most influential sire today here at Circle Ranch. The flush brothers sell as Lots 8 to 16, co-owned with Shasta View Genetics.

CLARITY IS CASH

\$20+

**MORE PER
CARCASS**

74lb.

LIGHTER COWS

Today's industry pays big for heavy fat steers, but your pocketbook demands smaller cows. What to do?

The answer is clear, dependable data and the courage to bypass traditional straightbreeding.

Simmental-influenced cows are an average **74 lb. lighter** at maturity than Angus-sired counterparts.^a

Meanwhile, packers pay **\$20 to \$34 more** for SimAngus™ and Simmental-sired steers than English-sired calves.^b

Finally, raise efficient cows and high-performance calves. The proof is in the data – and the cash.

STAND STRONG SIMMENTAL

406-587-4531 • simmental.org

^aUSMARC, Zimmerman, M., et al., "Breed and heterotic effects for mature weight in beef cattle," *J. of Anim. Sci.*, Vol. 99, 2021. Adjusted for sire sampling, Angus was the heaviest at maturity among the 16 breeds evaluated. Solutions are deviations from Angus. YW EPDs were extracted from genetic evaluations conducted in 2019. Estimate of MWT differences at 6 years of age. The study considered 108,857 weight records from 5,156 crossbred cows sired by 787 bulls. ^bEffect of sire breed group on carcass value of feedlot cattle harvested through Tri-County Steer Carcass Futurity Cooperative, Lewis, Iowa, 2002 to 2018. Odde, K. & King, M. (March 2021). Kansas State University. Relationships Among Sire-Breed Group, Calf Sex and Year Group on Carcass Traits. Breeds represented in the English-sired group: Angus, Red Angus, South Devon, Hereford and Shorthorn.

Fantasia is another Beacon daughter we purchased a flush on with Shasta View Genetics. Fantasia's moderate frame coupled with outstanding Maternal and Carcass EPDs fits our model here at Circle Ranch. We flushed her to TJ Frostline who we have used heavily the last three years and are selling 25 sons, including 4 out of Fantasia, Lots 24 to 27.

MATERNAL OR TERMINAL? THAT IS THE QUESTION.

We'll choose maternal every time. Maternal is a collection of traits that are hard to find, but equally hard to ranch without.

Most ranchers, we included, don't fully appreciate those traits until they're gone. Maternal traits must be intentionally selected for and proven out across generations. Culling into the right ones is a strategy some use but is not a sound breeding objective nor is it financially sustainable. Maternal traits must be intentionally selected from proper parent stock through the eye of a stockman and production data. There are no numerical values to quantify the term. Instead, the proof is the action within environment and experienced management.

Maternal is more than calving ease, more than calf vigor. It encompasses those traits, for sure, but also extends to the way in which cows optimize production within their environment. Here at Bruin and Circle Ranches the breeding goal is to continue to select and breed more of the kind that keep you in business. YOU know the right kind; YOU and YOUR environment have been selecting for her your entire career. These maternal traits need time, experience and keen observation to be implemented within a breeding program. This is why by the time a sire has proven to add maternal merit to a cowherd, he's often an old bull with seemingly outdated EPDs.

A VISION FOR THE FUTURE. The cow that is maternally superior to all others and navigates her environment with elegance, grace and profitability. She effortlessly converts the resources available into profit for the producer. She'll last a long time. She'll cause very few problems and for most of her life should go unnoticed in a crowd of others just like her. Her excellence isn't the outlier, it's the standard. Plenty of marketing firms have taken the opportunity to describe maternal where the narrative fits adding value to their herds, but few have truly articulated the essence of what the word maternal means when put into practice.

Circle Ranch

FEEDING OUR BULLS AT HOME

We continue to develop our bulls at home and feel it is one of the **STRONGEST PARTS** of our program.

Feeding our bulls in five acre lots filled with Oak trees gives them **PLENTY OF ROOM** to keep loose jointed and limber and **READY FOR TURN OUT**.

You won't see eye-popping yearling weights with our bulls, but what you will see are bulls that are **ATHLETIC** and will not lose as much weight during the breeding season.

“Going **MATERNAL** doesn’t sacrifice **GROWTH**. Only way to get good growth is with a *strong, solid, feminine cow*. That’s your bulls. **Such a solid program, my friend.**” —RYAN MAHONEY: OWNER EMIGH LIVESTOCK, RIO VISTA, CA

FROM OUR FAMILY *To Yours*

An operation of this scope is impossible without help from our community; thank you to our parents at the AM Ranch for doing an outstanding job raising our Embryo calves. Our boys, Bennett and Myles have filled the roles traditionally occupied by a third employee with enthusiasm and outstanding work ethic. Wyatt's loyalty and ability to analyze cattle is the best we have had, and we have reaped the benefit of the support and love of his entire family. Thank you, you have all stepped up when we need you the most, your passion for this program is essential for its success.

The Fischers - Joe & Abbee, Bennett, Paxton, Myles and Margalith

Wyatt, Carley, Donald, Larie and Trace

BRUIN FELLOW *sons*

Fellow has continued to jump through all the hoops by producing sons that have highlighted the sale season and the type of females the west commands. Their excellent motherly instinct and ideal foot shape has us going back to Fellow as a sire for the fifth year. His broody females combine perfect udders and teat size with above average milk. We confidently believe Fellow's story in the Angus breed is just beginning. The bulls are the front pasture type, commanding attention with their body length, extension, overall depth, and muscle shape.

HEIFER BULL CANDIDATE. An exciting way to lead off this Fellow Sire group. This maternal brother to Bruin Journeyman 1730, our lead off bull in 2022 and sire of lots 122-127 is complete from all angles. We see Pathway as a potential large scale commercial heifer project bull, his pedigree reads Bruin through and through. His dam is one of the oldest Torque daughters on the ranch and continues to produce quality every year. At 7 years old she maintains a gorgeous udder with perfect teat size.

Deep, long and complete sum up my notes on 3787. He is a maternal brother to one of the very top Barricades we sold last year. His ultra-feminine dam is a different twist to the Blackbird line. 7277 is as productive as we can make one. She is heavy milking, big bodied, long and pretty fronted and always brings home a good one.

An opportunity to own the full brother to the popular lot 3 in last year's sale. This bull is built with the same structure and skeletal outline as his brother. My notes say long, deep and complete. His mother is a larger scaled cow with stretch, performance and muscle, expect more growth out of this bull than numbers suggest.

A bull I would call right on the edge of a calving ease prospect. If you are confident in the size and maternal calving ease of the heifers, I would have no problem using him. This more moderately statured bull is complete in all his angles and type. His dam is one of the top young Rainfall daughters and a personal favorite of the Princess line. Keep every daughter you can out of this bull.

We are building a video repository of influential Bruin Ranch cows.

Use your camera app to access the playlist.

SITZ MILESTONE 636H • SIRE OF LOTS 105-114

We are always on the search for a bull with added outcross traits but from a cow that protects the maternal value we have worked so hard to breed into our herd. Milestone earned a spot in our AI roster due to his outstanding mother. At 11 years old, she still maintains 104 nursing ratio with a calving interval of 363 days. Her female line traces back directly to the immortal Everela Entense 1905. The sires in the maternal pedigree stack of Milestone include some of the most highly proven and productive cow makers of the breed in the past 15 years. These sons are rugged, powerful and high growth.

A new sire group highlighted by Limited, a bull that combines one of the most extreme sets of growth data we have ever produced. Limited is a type stand out combining masculinity, muscle and capacity in a practical frame size. His young dam is on the fast track to notoriety in our herd. She was an early favorite as first calver combining gorgeous maternal type with outstanding productivity, and as a 3 year old she has only gotten better.

An early prediction is that 3706 will be one of the crowd favorites on sale day 2024. This bull matches his power and performance with breed leading type. He has been a standout all summer to visitors with his presence and striking front third. His Fellow dam is one of the best on the ranch and has often been a cow shared with digital media. A good bull here with an excellent dam.

Building a cow that is **RESILIENT & WORKS** with *Mother Nature* is quite a task.

LOTS 107-108. HEIFER BULL CANDIDATES. These maternal brothers to Fellow, Endorsement, Essence, Guardian and many others offer as much longevity as any in the sale. These bulls present with quality, they are thick made, easy fleshing and long sided. Opportunities to own an own son of 8616 are fewer all the time. At 16 years old she still roams the fields at Bruin, one of the best to ever grace our pastures. For 3 years straight 8616 produced the high sellers of this Event and had sons lead off the sale.

His EPDs say calving ease, his own birth weight and mother say calving ease, but you be the judge. 3715 brings extreme power, performance, length and pay weight to a calf crop. His brother last year was the high growth Lot 18. His young Forager dam is one of the most productive nursing ratio cows we own ratioing 15% above her contemporaries. Lots of growth, lots of octane wrapped into this pedigree.

As a calf 3741 received as much attention as any. On the side of his dam, the two represented one of the most ideal pairs we have bred. His mother is the only flush sister to Bruin Fellow 8224, a herdsire who has recently gained a lot of publicity. This bull is banged up at the time of footnotes, we are hopeful he makes a full recovery by sale day.

Bruin Fellow 8224 • Flush Brother to the Dam of Lot 114

SITZ LOGO 8148 • SIRE OF LOTS

Logo 8148 was an outcross calving ease specialist that we sampled this year. These calves were born light and vigorous, something we really value calving on these hot fall days. An 11-year-old Pathfinder dam is a bonus with 8148. Her production record is impeccable, posting progeny averages of 98 BW and 107 WW. Longevity and fertility must be bred and selected for; 8148 sons should do a nice job making daughters that last.

This lead-off "8148" son had strong consideration to lead off the sale book. My only comments read "real dense," which is remarkable considering his low birth weight. Muscle, power and middle best describe him and his dam is one of the top young Barricade daughters. His mother is from a long line of wonderful cows that have worked here back to the same cow family as Bruin Rubicon 4356.

HEIFER BULL CANDIDATE. One of the most complete commercial heifer project bulls in the sale. His flexible pedigree and unique data make him an ideal bull to use on most popular pedigrees of today. As an individual he is complete and fault-free. His dam is one of my favorite young cows, end of discussion.

THE MOST UNIQUE THING WE DO...

The most unique thing we do is breed cattle to excel right here. In this latitude, in this rangeland, this foothill Oak Savannah landscape - the foothills of the Sierra Nevada Mountains - that we're blessed to graze. Raising cattle that are adapted to the significant constraints of this semi-desert, wildly rugged environment and tested inside of this microclimate has produced a great deal of customer satisfaction throughout the arid west and beyond.

Building a cow that is resilient and works with Mother Nature is quite a task. The best way to achieve it is to watch the ones that are doing it and make more of them.

It has always been our goal to challenge cattle beyond what they'll be challenged when they go into the commercial sector. When customers use our cattle that have been born, raised, bred to thrive here, they usually go on to do very well out in other environments.

We need to have performance, absolutely, but bulls are the by-product of what we do best: raising resilient, productive and profitable mother cows. We focus everything on the mother cow, her cost of production and cull rate. Working on that end of the balance sheet has proven to be more fruitful for us than the other.

A man wearing a light blue long-sleeved shirt, blue jeans, a brown leather belt with a large silver buckle, and a wide-brimmed straw hat stands with his arms crossed. He is looking off to the side. To his left, a black cow with yellow markings on its hindquarters stands in a grassy field. In the background, there is a wooden barn and some trees.

CATTLE RAISED ALONGSIDE YOU
CATTLE BRED TO EXCEL FOR YOU

BRUIN JOURNEYMAN *sons*

BRUIN JOURNEYMAN 1730 • SIRE OF LOTS 122-127

Journeyman was the highlight and high seller of our 2022 sale going to Curtis Vanderveen in Kansas and TK Angus in Nebraska. His first calf crop has defied all typical measures of performance, being light at birth and maintaining explosive growth. The bulls are noticeably outpacing many of their pen mates for growth and seem to be exceptionally docile. The replacement heifers sired by Journeyman display exceptional body depth, length and femininity, a combination that is difficult to breed into cattle.

HEIFER BULL CANDIDATE. A bull that dominates the sire group in thickness, ruggedness and power. 3743 is soft sided and the right kind to bring heavy calves to any operation. His dam is heavy milking and produced one of the good ones last year as well.

SAV ANTHEM 0042 • SIRE OF LOTS 128-137

Anthem is an easy choice when considering his own traditional Angus type, perfect head, easy fleshing body shape and docility. The dam to Anthem owns one of the most impressive resumes in the breed, maintaining Pathfinder status with a 107 Nursing ratio. Her flawless body shape, hoof quality, udder structure and teat placement make her one of the most sought-after cows in the breed. These Anthem sons are out of some of our very best daughters of Torque, Prosperity and more and should leave outstanding daughters in any progressively maternal operation.

Leadoff bull in a trio of full brothers in blood. When we chose to use Anthem, we hoped to produce a son we could use in our own herd, we think Legion is that good. His dam is highly productive and her predictable flush of sisters ALL have quickly become the backbone of our herd.

Bruin 9131 Blackbird 9243 with Bruin Legion 3751

A full brother in blood to lot 128 and out of a cow with similar type and kind. This is the third of three outstanding bulls 9240 has raised. 9240 embodies maternal with abundant milk and picture perfect teat size. Much like her sisters, she is gentle and easy to be around.

The final full brother in blood off a trio of herd building, excellent type bulls. If you hope to retain replacement heifers, we strongly recommend looking right in this section of the book. While trailing cows to the corral horseback on weaning day, he was in the back of the bunch and noticeably easy going. His excellent type is matched by expressive muscle through his back and hip.

We are building a video repository of influential Bruin Ranch cows.

Use your camera app to access the playlist.

LOTS 131 AND 132: As babies, these full brothers in blood were shared through text across the country as some of the first Anthems people had seen. They were so loose hided as a day-old babies, they visually had wrinkles up on their hide. This pair is dense, soft and powerful. They are female makers supreme and out of two of the favorite cows on the ranch.

A bull with changer type and changer data. This bull hits hard with performance, length, scale and weight. He is massive, we recommend using him like you would any extra power bull, his performance will run with any breed. His dam is affectionately referred to as "the Queen," and she is something to behold. 0742 was intensely line-bred for consistent type and breeding potency and we expect her son to produce daughters like her.

This Anthem x Torque cross is bred to consistently put out the type of females our environment demands but with modern performance and growth. 3736 fits in the model with a dam who we could label as "just right." 0108 goes back to the Elba cow family which has excelled in fertility and longevity, her mother left the herd at 15 just this year. 0108 is powerful, big bodied and exceptional uddered.

Another Anthem x Torque from a long lived female line. Tie into the female value of these Anthems, the dam of 3721 is ideal uddered, sized and a model Torque daughter. The granddam of 3721 left Bruin at the age of 18, having raised a calf or twins every year since her 2 year old opportunity. The ONLY way to select for longevity is by using pedigree full of cattle with it.

A bull that is a little behind the others but offers genetics packed full of longevity, rangeland adaptability and practicality. Every cow in his three generation pedigree was a good one here back to the Emblazon sired pathfinder daughter of "Daisy," one of the best to do it here and in the Circle ranch program. The granddam of 3750 is still producing at Bruin at the age of 13.

Bruin 7404
Princess
1281
Maternal
Granddam
of Lot 137

"We place a great deal of **RESPONSIBILITY** in the genetics we provide – mostly because the bulls we sell, in large part, go right to *family and friends*."

We know the decisions we make today impact our customers tomorrow.
We don't take those decisions lightly."

- Joe

RAINFALL *sons*

SAV RAINFALL 6846 • SIRE OF LOTS 138-146

This multi-trait breed leader has a balanced set of proven EPDs and has proven through nursing daughters to bring value to the Angus population. Rainfall represents the largest number of daughters of one sire group in the Bruin herd. His daughters are consistently easy fleshing, feminine fronted and milk perfectly for our environment. He has complemented our Traveler lines incredibly well and while we have offered three years worth of his sons, we have more Rainfall babies on the ground this fall. Quality never goes out of style and predictably proven brings more consistent value to our operations than potential.

Bruin Hologram 0734 • Flush Brother to the Dam of Lots 138 and 139

Lots 138 and 139: A pair of flush brothers built for gorgeous replacement females. We've made it no secret that the highest count of daughters of any sire group at Bruin are Rainfalls and this duo is out of an exceptional flush sister to Bruin Hologram 0734. 0726 is one of the heaviest milking cows in the herd, but still does it with a welded-on attachment and perfect teats. The sister mates to these bulls are at the very top of our retained females for 2024

A heifer bull candidate for larger framed heifers or cattle without extreme birth in the pedigree. This bull is a maternal brother to last year's sale attraction Bruin Kirkwood 2716. This bull is moderate in stature, extremely deep bodied and densely made. His pedigree is loaded with cows who have done a nice job here; being easy fleshing and problem free. He should make daughters much the same.

This pair of moderate and thick Rainfall sons are full of breed character and type. Both cows are on the smaller end of our herd in terms of size but excel at pounds weaned per pound of body weight. For herds looking to hold mature size or even down size their cows a little, this set of brothers are excellent options. Their daughters will excel in this foothill ranching environment.

LOTS 143 AND 144 A pair of flush brothers, who are in turn full brothers in blood to the famous SAV Bloodline 9578. We were offered the chance to partner on a flush of their beautiful 9969 dam and jumped at the opportunity. These bulls were raised in our embryo program and present as much upside potential as any we will offer. Give them time and let them be, these bulls pack incredible genetic potential for siring the right kind of females for our operations. Their retained flush sisters are near the top of our replacement pen.

SAV Bloodline 9578 - Full brother in blood to Lots 143-144

LOTS 145-146 HEIFER BULL CANDIDATES. The cowboys will find these younger heifer bulls. The outline, growth and type on this pair is exceptional, just in a little lighter package. I lumped together their footnote because their dams are both so similar in type. Pretty fronted, big bodied, gorgeous uddered and productive, these young cows are the kind that really fuel my excitement in this business. Both calved with the first service AI group this year, backing up in the calving season from their first year.

We are building a video repository of influential Bruin Ranch cows (including the Dam of Lot 145).

Scan this QR Code to watch.

BRUIN TORQUE *sons*

BRUIN TORQUE 5261 SIRE OF LOTS 147-149

Torque has become a household name in the Angus business as a sire of outstanding daughters. In his first year with a significant number of daughters to qualify, he earned Elite Pathfinder Status through the American Angus Association. Torque's influence can be found throughout our pedigrees and has proved to be a foundation type breeding piece, stamping his influence with the qualities we expect of a mother cow on rangeland. There are only three opportunities to purchase a son this year, but we feel each carries a seedstock level of quality for a potential herd sire.

An outcross Torque son backed by an incredible cow. On evaluation, Gearbox is long, thick and carries that herd bull presence. His mother is the only Emblazon 702 daughter of our Miss Charlo 2074 donor and one of our favorite 5-year-olds. Gearbox is a maternal brother to Bruin Jester 1713, one of the best from our offering in 2022 and used in our program.

This Torque x Rainfall and Rainfall x Torque cross has proven to be incredibly effective in our breeding program. A definite herdsire, Turbo carries the name that has been reserved for a Torque son for years. His elegant dam defies logic with her ultra feminine head and neck but with more power and body than most. 0107 is special and one of our top cows.

A full brother in blood to lot 148, but a little different type of bull. Flex is the most densely made option of the trio. This easy fleshing, bold middled bull packs plenty of thickness and pay weight into a practical yearling size. 0116, while a flush sister to Lot 148's dam, is the thicker, stouter made option. Flex injured an eye while on test this summer and we decided to catalog him and evaluate his progress on sale day.

PROSPERITY *grandsons*

SAV PROSPERITY 9131

Prosperity has surfaced as a dominant pathfinder sire through actual data by producing daughters and real proof. In 2016 alone, we were able to evaluate nearly 1200 sons and daughters. The sons are fantastic in their foot shape and heel depth, long spined and big topped. The daughters are hardworking females with pathfinder type milking ability, excellent fertility, and nice dispositions. In his three-generation pedigree, Prosperity is one of the few animals to be found in the entire Angus population with eleven out of fourteen pathfinder ancestors. Through his daughters, granddaughters and sons, Prosperity is one of the most influential sires in our herd.

HEIFER BULL CANDIDATE. The only Gatsby son in the sale but an exciting individual. Gatsby was the performance powerhouse of 2020 and still the favorite son of one of the best cows on the ranch. 3738 has a very nice outline and excellent structure. His young dam is my ideal and on the fast track to the donor pen. Her pedigree is classically maternal and her own type and function put her in a class of her own.

A forgiven son that reads calving ease but we encourage evaluating this bull on sale day and the maternal calving ease of your own operation. He was modest at birth and his dam is one of our top calving ease producers but his sire is pure muscle and power. Birth EPD aside, the pedigree is a who's who of cow makers in the Bruin program. Excellent retained heifer potential here.

Bruin Forgiven 8226 - Sire of Lot 151

BRUIIN ENVY 7248 • PATERNAL GRANDSIRE OF LOTS 152-157

With enough progeny in production across multiple environments, management, and breeds it's safe to classify Envy as a changer bull. Envy consistently adds body depth, fleshing ease, udder quality and traditional type to his progeny. His first daughters are just what we had hoped, practically sized, excellent uddered and maintain their flesh in the most challenging conditions. Through retained sons and countless daughters, Envy's impact on our herd is just starting to gain momentum.

A bull who reads with more calving ease than experience suggests with his sire. This younger bull is really coming on and for anyone who follows our program, he is a maternal brother to our sale topping Bruin Kickback 2780 last year. His dam is a star in our program and waiting on her turn for the donor pen. She is a model Fellow 8224 daughter and fits our maternal mold perfectly. Her classic front end, wedge shape and gentle disposition put her at the head of her class.

A $\frac{3}{4}$ brother to lot 152 with a little higher octane and performance-oriented dam. Don't be scared by birth EPD. This bull DOES NOT have an actual birth weight entered, which would have lowered that number. Experience tells me he was in the 80s but I couldn't get him found and tagged within appropriate time so accurate data for him is to report no birth weight. This younger bull is geared to produce heavy weaned calves and feedlot merit.

Another Influence son who reads lower birth EPD than I would trust on heifers. This set of sons should highlight the importance of use numbers as a tool, but get to know the breeder and let them set you up for success. The sire of these bulls was the most powerful, high growth Envy son we ever made and from a dam who left us at 12. We didn't offer Influence and used him in our own program. The female mates to these bulls are stunners. 3785s mother is another member of the flush sisters to Guardian, love the cow power in this pedigree.

The value point of the sale, we will see who reads what I write. This bull is plain on paper and assembles numbers that seem out of date. Rest assured; this bull is out of one of the best Torque daughters on the ranch. 8261 never fails at making females that excel in our range. She's not a small cow, but maintains her flesh, milks well and sports a perfect udder. There is tremendous value in retaining females out of this bull.

HEIFER BULL CANDIDATE. One of the best we will offer. A Bruin pedigree through and through, bred for consistency and the ability to optimize the forage and management cycles of California rangeland. This bull has been a favorite for a long time and his young dam is nearly ideal. 1834 raised the high indexing bull at weaning with this son and backed up almost a month calving with the AI group. She does all this while maintaining one of the lightest actual mature weights in our herd. This cow is exactly what we breed for.

A blast from the past. This bull has 2 full sisters in blood that are everything we breed for in the replacement pen. When you go back and use these matings, most times the hope is for females. This bull presents an incredible opportunity for someone seeking to find time tested maternal quality. When we hear "All I want is the cows I had 20-30 years ago," this pedigree is exactly that!! Buy with confidence in the maternal predictability.

COMMERCIAL-FOCUSED THEN, NOW

and Tomorrow

Thank you for giving our programs the chance to offer genetic improvement to YOUR exceptional programs and thank you for continuing to offer your business to us. We believe in our genetics and service but are humble enough to admit that it is by YOUR own efforts and YOUR quality cowherds that our genetics have had the opportunity to flourish.

Your commitment to a quality cowherd continues to drive our programs to breed toward more consistency, more longevity, more productivity and more profitability. Your constant support and affirmation are our satisfaction. We thank you for your business, and we thank you for the relationship.
